PARASOL RECHARGEABLE ACCENT LAMP, TRAVERTINE

ITEM #30903-1

A tapered travertine base showcases the stone's natural pitting and subtle tonal variation, paired with an antique brass metal coolie shade and coordinating accents. A touch dimmer on the base provides effortless brightness control, while the integrated 3000K LED system casts a warm glow and offers up to 50,000 hours of illumination. As with all natural stone, variations in color, texture, and pitting make each piece unique.
