CHANNEL YOUR INNER GLOW TABLE LAMP

ITEM #R30844

The internally-lit body warmly glows through the channels of this 3D-printed ceramic as well as up through its acrylic cap. Control the body's light volume with a dimmer located on the antique brass-finished metal base. Control the top light through a 3-way switch within the white, linen-like, round tapered hardback shade with 1" trim. Finished with taupe French wire cloth cord.
